

GEORGIOS KARAMOUSALIS

JUNIOR JAVA BACKEND DEVELOPER · SPRING BOOT · REST APIS · SQL · DOCKER

Patras, Greece · Open to remote opportunities

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFILE

Computer Science graduate and MSc Artificial Intelligence candidate focused on Java backend engineering. Builds secure REST APIs and production-style systems with Spring Boot, PostgreSQL, Docker, automated testing and CI/CD. Brings operational discipline, customer awareness and research-led problem solving.

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, SQL · Backend: Spring Boot, Spring Security, JPA/Hibernate, REST APIs, JWT, FastAPI, Node.js · Data: PostgreSQL, MySQL, MariaDB, Flyway, Redis · Quality & Delivery: JUnit, MockMvc, Testcontainers, Pytest, Docker, GitHub Actions, Git, OpenAPI/Swagger

EDUCATION

MSc Artificial Intelligence | In progress

Deep learning, natural language processing, model evaluation and applied machine learning research.

BSc Computer Science | Metropolitan College, Athens, Greece | 2022 – September 2025

Software engineering, databases, distributed systems, web development, data analysis and artificial intelligence.

SELECTED PROJECTS

LedgerGuard — Secure Wallet Platform | Java 21, Spring Boot, PostgreSQL, React | [GitHub](#) · [Live Demo](#)

- Built a JWT-secured wallet and transfer API with atomic balance updates, idempotency keys, currency and insufficient-funds rules, optimistic locking and database constraints.
- Added Flyway, OpenAPI, JUnit/MockMvc, PostgreSQL Testcontainers, Docker Compose and GitHub Actions; published a responsive interactive dashboard.

ResolveHub — Support Ticket & SLA Platform | Java 21, Spring Boot, React, PostgreSQL | [GitHub](#) · [Live Demo](#)

- Designed role-based ticket workflows, SLA monitoring, activity history, search and dashboard metrics; integrated Flyway, OpenAPI, JUnit/MockMvc, Docker Compose and CI/CD.

SupplyPilot — Operations Command Center | Java 21, Spring Boot, React, PostgreSQL | [GitHub](#) · [Live Demo](#)

- Created an inventory, purchasing and expense platform with a JWT-secured API, Redis, RabbitMQ, observability, testing and automated delivery.

Stance Detection with Deep Learning | MSc Thesis · In progress

- Developing a reproducible FAVOR, AGAINST and NEUTRAL NLP pipeline using TF-IDF baselines, BERT and RoBERTa on VAST and EZ-STANCE, with model evaluation and error analysis.

Social Network Analysis for Influencer Detection | BSc Thesis

- Used Python, NetworkX and Gephi with PageRank, centrality and community detection to identify influential actors and translate graph metrics into interpretable findings.

EXPERIENCE

Expenditure & Supply Office · Hellenic Army | September 2025 – June 2026

- Supported expense records, supply documentation and administrative workflows requiring accuracy, organization, confidentiality and dependable delivery under deadlines.

Retail Operations · Family Wine Shop | 2022 – Present

- Support customer service, product handling, stock organization and daily operations, building commercial awareness, communication and ownership.
